

Dear Insurance Representative:

I understand that many insurance companies grant homeowner's insurance discounts for the installation of fire safety equipment in the home. I recently installed in my house The Home Fireman, a complete residential fire extinguishing system for early-stage fires. It is manufactured by SafeHome Industries, Inc., Buford, Georgia, [www.homefireman.com](http://www.homefireman.com) or 888-NO-2-FIRE.

The following is a complete list of fire safety equipment currently in my home:

1. Smoke Detectors <input type="checkbox"/> One unit <input type="checkbox"/> Two units <input type="checkbox"/> Three units <input type="checkbox"/> More than three units.	Batteries checked on regular basis.
2. The Home Fireman <input type="checkbox"/> One unit <input type="checkbox"/> Two units <input type="checkbox"/> Three units <input type="checkbox"/> More than three units	The Home Fireman, the complete residential fire extinguishing system for early-stage fires, is centrally located in my home and offers up to 160 feet of coverage. The Home Fireman is manufactured to meet the National Fire Protection Association's recommendation 10R for a residential fire cabinet. The unit contains a 10 BC canister extinguisher for grease and electric fires and a 40' hose permanently connected to the standard residential water line to extinguish ordinary flammables.
3.	
4.	
5.	

The fire department that would service my home in case of emergency is the following:

County/Town: \_\_\_\_\_ State: \_\_\_\_\_ Phone: \_\_\_\_\_

The distance to the nearest fire hydrant from my home: \_\_\_\_\_

My telephone number: \_\_\_\_\_ My email: \_\_\_\_\_

Current Policy Number (if applicable): \_\_\_\_\_

Please let me know what the discount to my insurance policy will be.

Sincerely,
